

RAILROAD COMMISSION OF TEXAS

Oil and Gas Division

NOTICE TO OIL AND GAS OPERATORS

Form P-4 Multiple Gatherer/Purchaser Online Submission Now Available

As part of the Railroad Commission of Texas' (RRC) Texas Oilfield Relief Initiative, oil and gas operators can now change gatherer(s) and/or purchaser(s) for more than one lease by submitting a single filing using the P-4 Change of Gatherer/Purchaser application in the using RRC Online System at <https://webapps.rrc.texas.gov/security/login.do>.

Operators will search for their leases by district, county, or field. The system will produce a list of the operator's leases that meet the criteria from which they will be able to select up to 400 leases at a time, and submit a single filing to change the gatherer(s) and/or purchaser(s) for all the selected leases.

The process for submitting a P-4 Change of Gatherer/Purchaser for a single lease is not changing.

To view instructions, visit the P-4 Change of Gatherer/Purchaser help page in the RRC Online System under "P-4 Certificate of Compliance and Transportation Authority – multiple leases".

Existing users with accounts in the RRC Online System do not need to designate a new security administrator. The organization's security administrator needs only to assign rights for filing online through their administration accounts to grant their users access. If your company needs to set up security administrator rights to file online using the RRC Online System, view the instructions on RRC website at <http://www.rrc.texas.gov/about-us/resource-center/forms/online-filing-at-rrc/>.

If you have questions regarding this change, please contact the Well Compliance Unit of the Oil and Gas Division by email at prorationunit@rrc.texas.gov or phone at 512-463-6975 for assistance.
